KEEP THIS GUIDE WITH THE ADULT

The Paper Lighthouse Signal

Print the Player Pack. Keep this guide private and release one checkpoint at a time. Use pencils; cutting cards is optional.

BEFORE PLAY

Print one Player Pack for your 4 players. Paper size: A4. Use pencils. An adult may cut cards or tiles before play, or leave every sheet whole and let children point and write. Release each challenge and its material sheet only after checking the previous result.

HOW TO GUIDE

The five checkpoint sheets contain the players' clues and paper pieces. Keep the answers below private. Read one unlock aloud after the team proves its choice. If the team is stuck, use the gentle hint before revealing the answer.

GUIDE / CHECKPOINT 1

Find the silent lamp

HAND OUT

Player checkpoint 1 challenge and evidence cards sheet: Four inspection cards.

PLAYER ACTION

Inspect the paper cards and find the part that cannot send light. Compare the four inspection cards. Point to the item that needs repair.

GENTLE HINT

Look for something that should shine but does not.

ANSWER

B. Beacon lamp

WHY IT FOLLOWS

Only the beacon lamp has power but remains dark.

NEXT UNLOCK

The keeper opens the repair instructions.

GUIDE / CHECKPOINT 2

Put the repair in order

HAND OUT

Player checkpoint 2 challenge and order tiles sheet: Repair order tiles.

PLAYER ACTION

Arrange the repair tiles and explain the rule behind your order. Arrange the four printed repair steps from first to last, or number them on the whole sheet.

GENTLE HINT

Put the first and last steps down before deciding the middle.

ANSWER

A. Check, fit, align, test

WHY IT FOLLOWS

The switch comes first, fitting precedes alignment, and the test is last.

NEXT UNLOCK

The test sheet reveals a coded beam word.

GUIDE / CHECKPOINT 3

Decode the beam word

HAND OUT

Player checkpoint 3 challenge and symbol key sheet: Beam symbol key.

PLAYER ACTION

Use the symbol key to decode the test word. Use the printed key to replace each number in the signal 1-2-3-4 with a letter.

GENTLE HINT

Start with the number 1 and write one letter at a time.

ANSWER

A. BEAM

WHY IT FOLLOWS

The key maps 1 to B, 2 to E, 3 to A and 4 to M.

NEXT UNLOCK

The beam word opens the paper harbour routes.

GUIDE / CHECKPOINT 4

Trace a safe route

HAND OUT

Player checkpoint 4 challenge and route board sheet: Three harbour routes.

PLAYER ACTION

Trace the route that uses a bridge and avoids sharp rocks. Trace each route row from START to END and check its printed features.

GENTLE HINT

Cross out any route missing either required feature.

ANSWER

A. NORTH

WHY IT FOLLOWS

NORTH has a bridge and no rocks; CENTRE lacks a bridge, and SOUTH has rocks.

NEXT UNLOCK

The safe route reaches the final signal record.

GUIDE / CHECKPOINT 5

Complete the signal record

HAND OUT

Player checkpoint 5 challenge and decision record sheet: Final signal checklist.

PLAYER ACTION

Use the record to choose a final message for the harbour keeper. Check each printed fact against your four previous results, then record the final action.

GENTLE HINT

Check one line of each message against the record.

ANSWER

A. Fix the beacon lamp, check-fit-align-test, BEAM, NORTH

WHY IT FOLLOWS

Only the first message matches all four checked results.

NEXT UNLOCK

The lighthouse shines across the harbour.

THE ADVENTURE CONCLUDES

The ending

The beacon lamp shines again. The crew follows the north route and guides the paper boat into the safe harbour.

Check all five results against the printed materials before sharing the ending. Keep this guide separate from the children’s pages.
